

In the upcoming series of assignments, you'll be tasked with developing the "Coders" application, comprising six main pages:

- Sign-in and Sign-up pages.
- Home page featuring a list of challenges.
- Challenge coding-lab page.
- Leaderboard page.
- Profile page.

Features

- Coders can sign in and sign up to the platform.
- Coders can view the challenges and filter by categories on the platform.
- Coders can access the leaderboard showcasing the top-ranked coders.
- Coders can select a challenge to work on and submit their solution for grading.
- Coders have the ability to manage their profile.

Theme

The application supports both light and dark themes, with specific colors assigned to various elements.

Background Colors:

- **Navbar background color (light-mode):** #E5E7EB
- **Navbar background color (dark-mode):** #23155B
- **Main application background color (light-mode):** #CBd5E1
- **Main application background color (dark-mode):** #4322C9A3

Font Colors:

For the font colors, the approach is straight-forward: use white when in dark theme and black when in light theme.
